DStream Header, Shrouded 0.050 (1.27mm) 2 rows 10 Pins

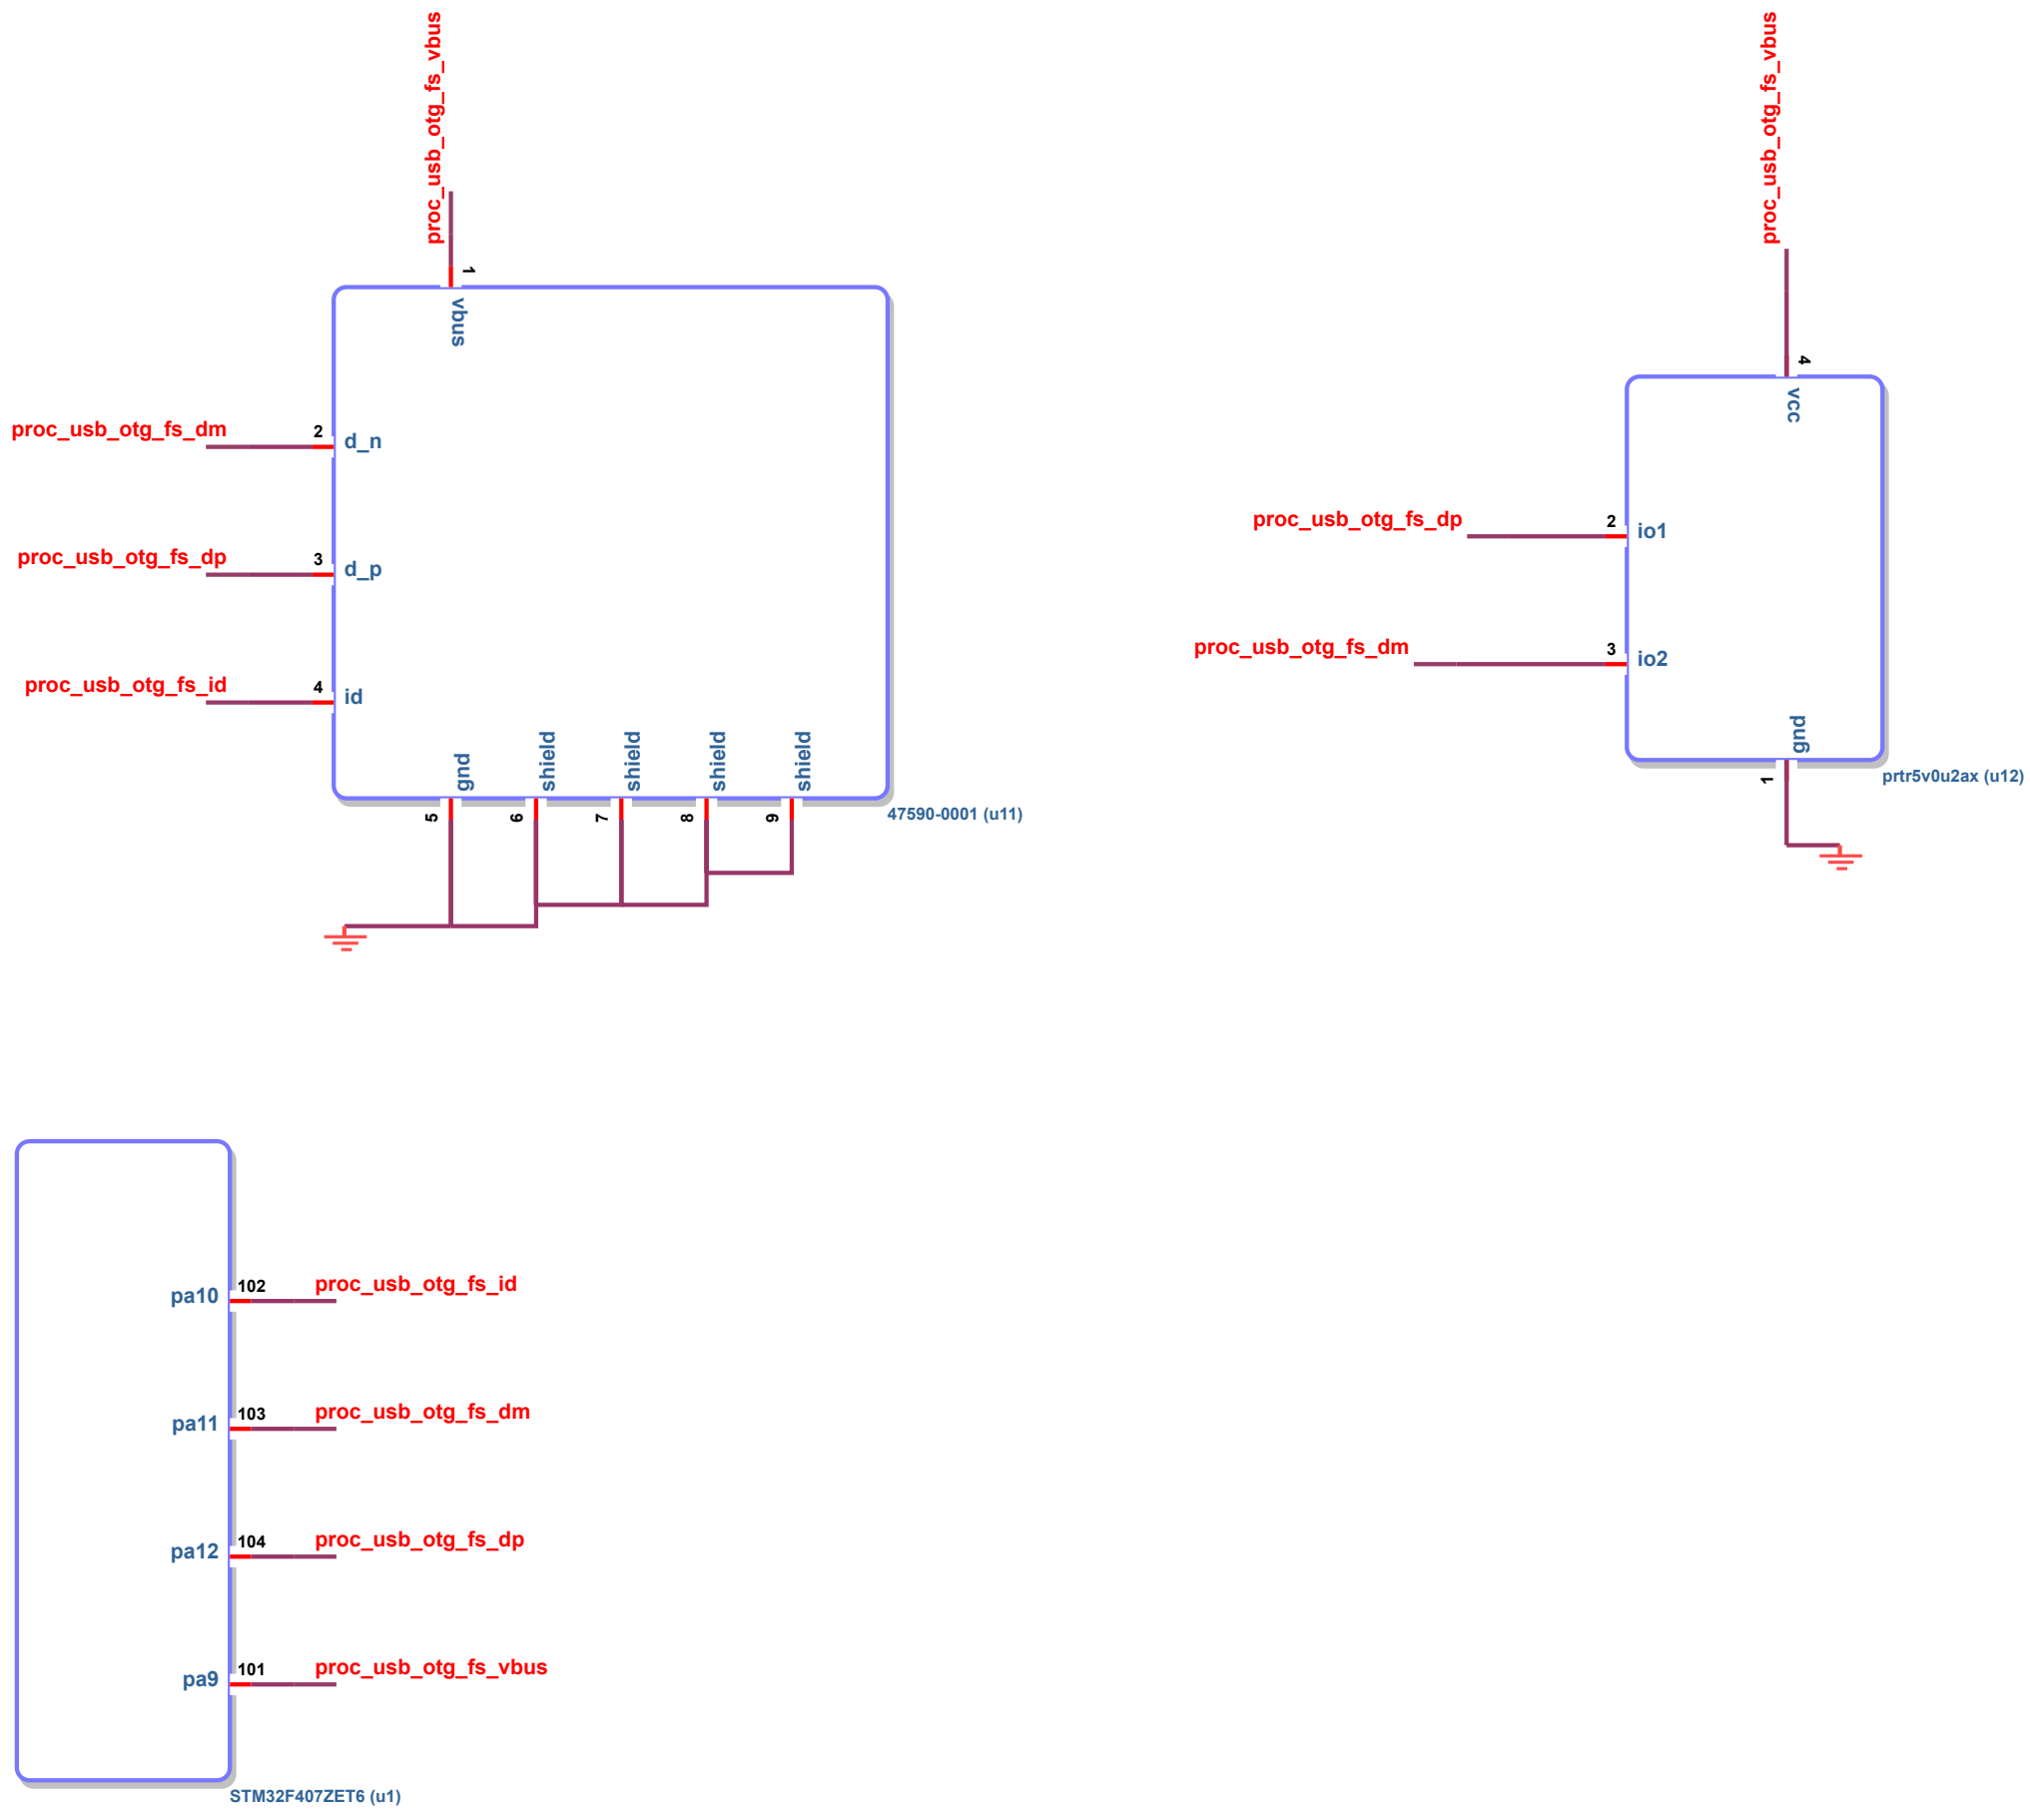

Ethernet transceiver with Rj45 having Integrated Magnetics -With Custom Options - (Enable All the Bus Mode for the ethernet Phy) (Choose external clock) (Disable Internal Regulator) (Choose MDC Bus address as 0x03)

micro SD Card connector

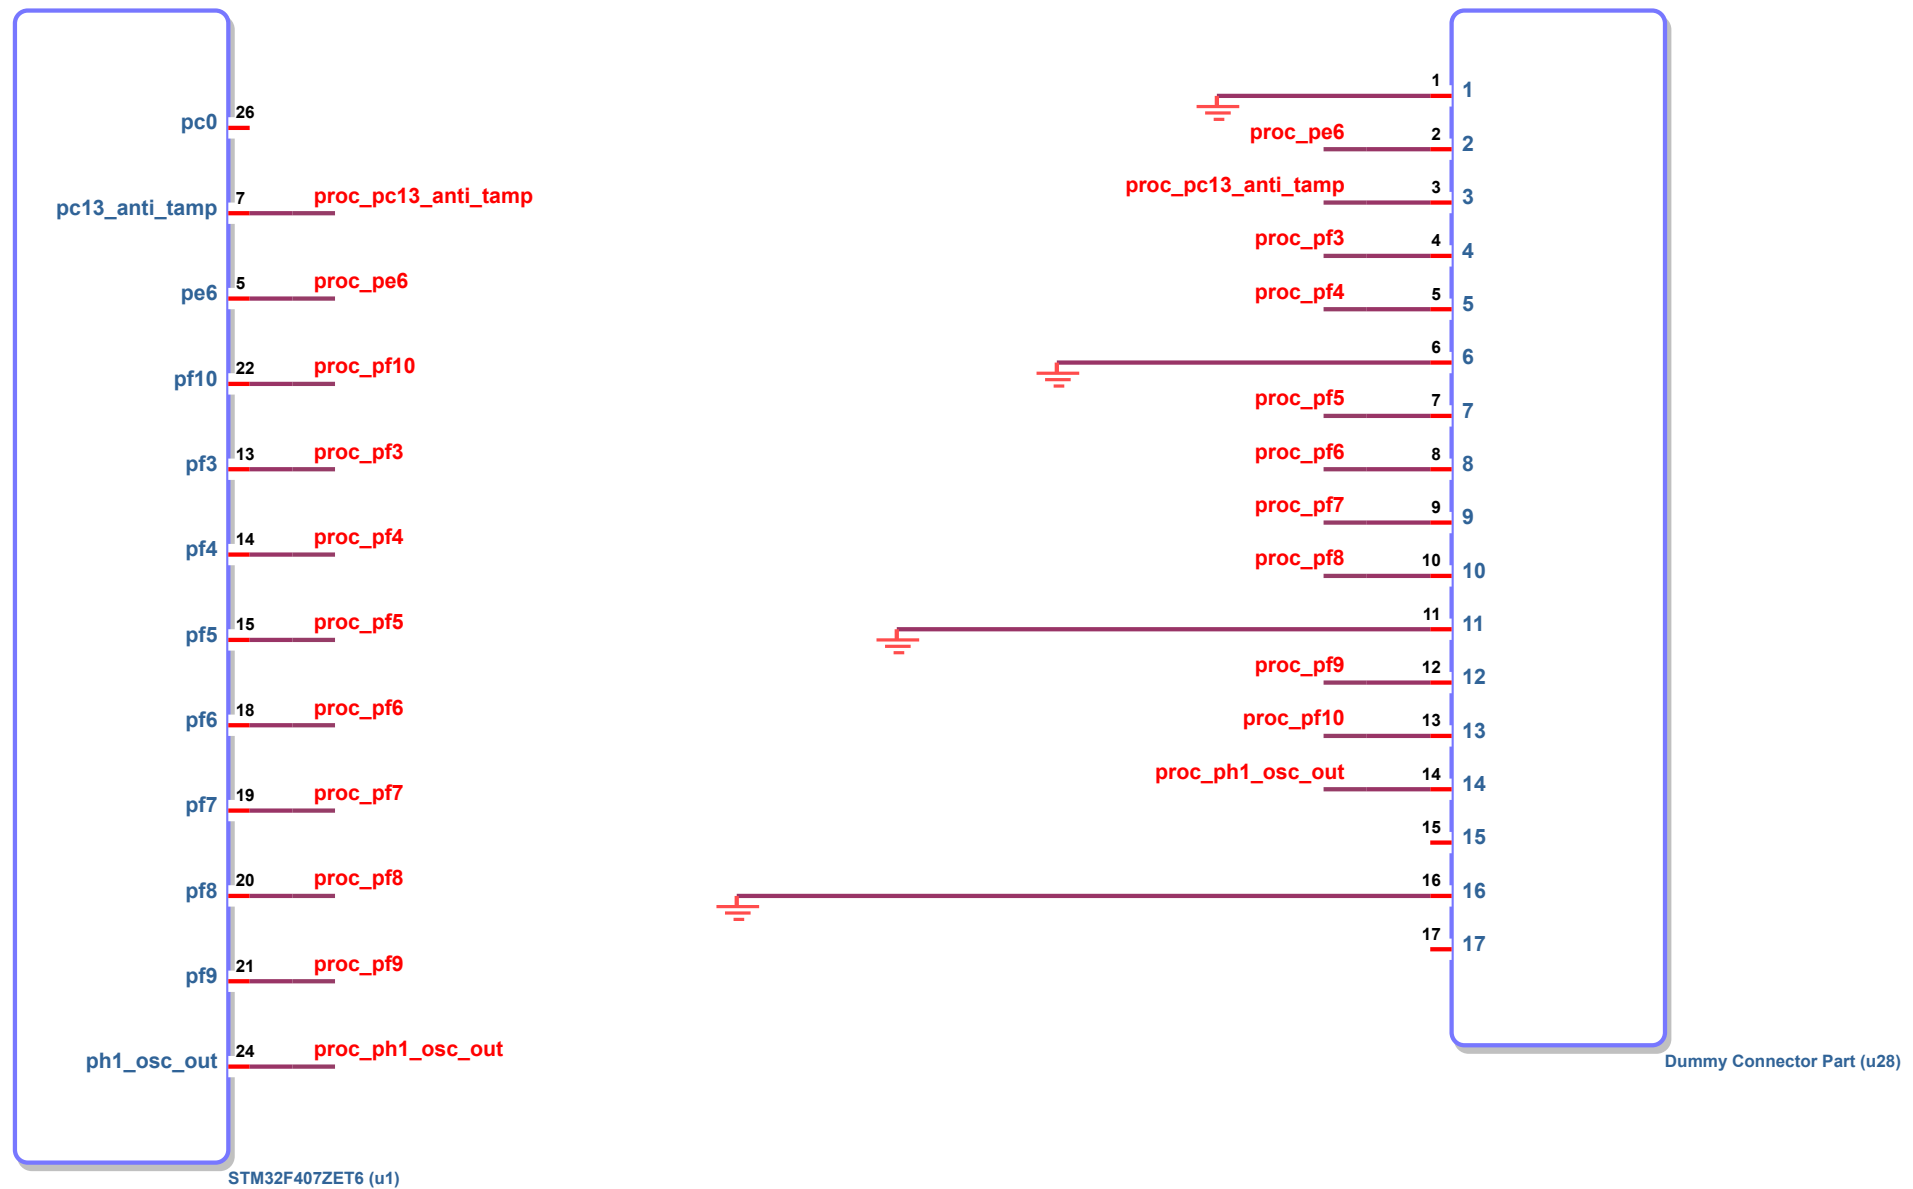

USB Micro AB connector with ESD diode

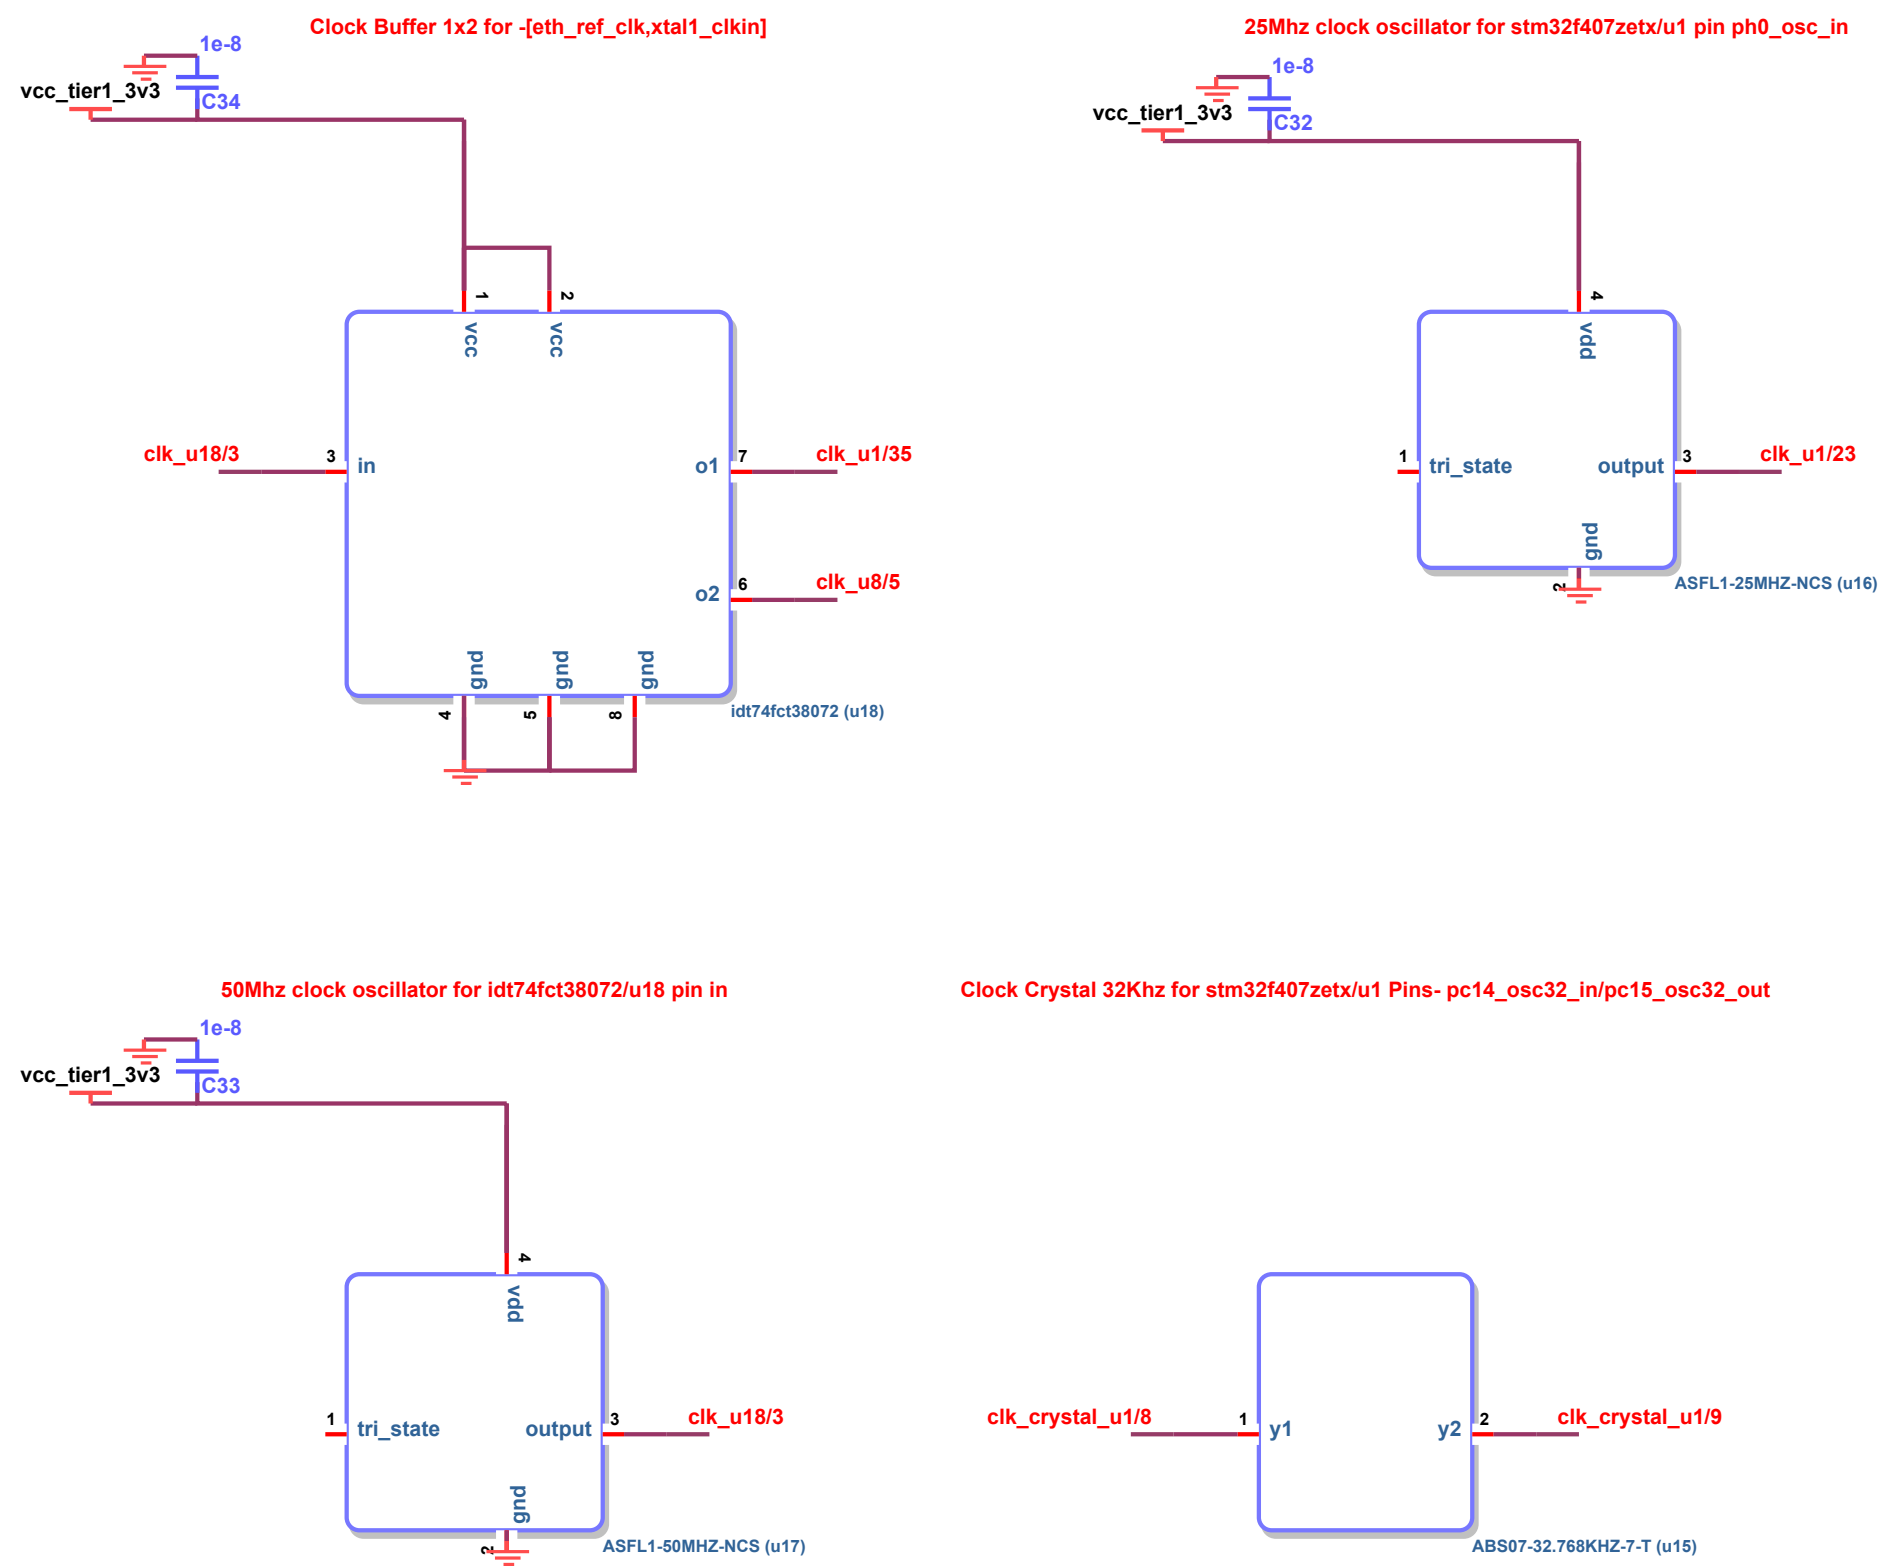

USB Micro AB connector with ESD diode

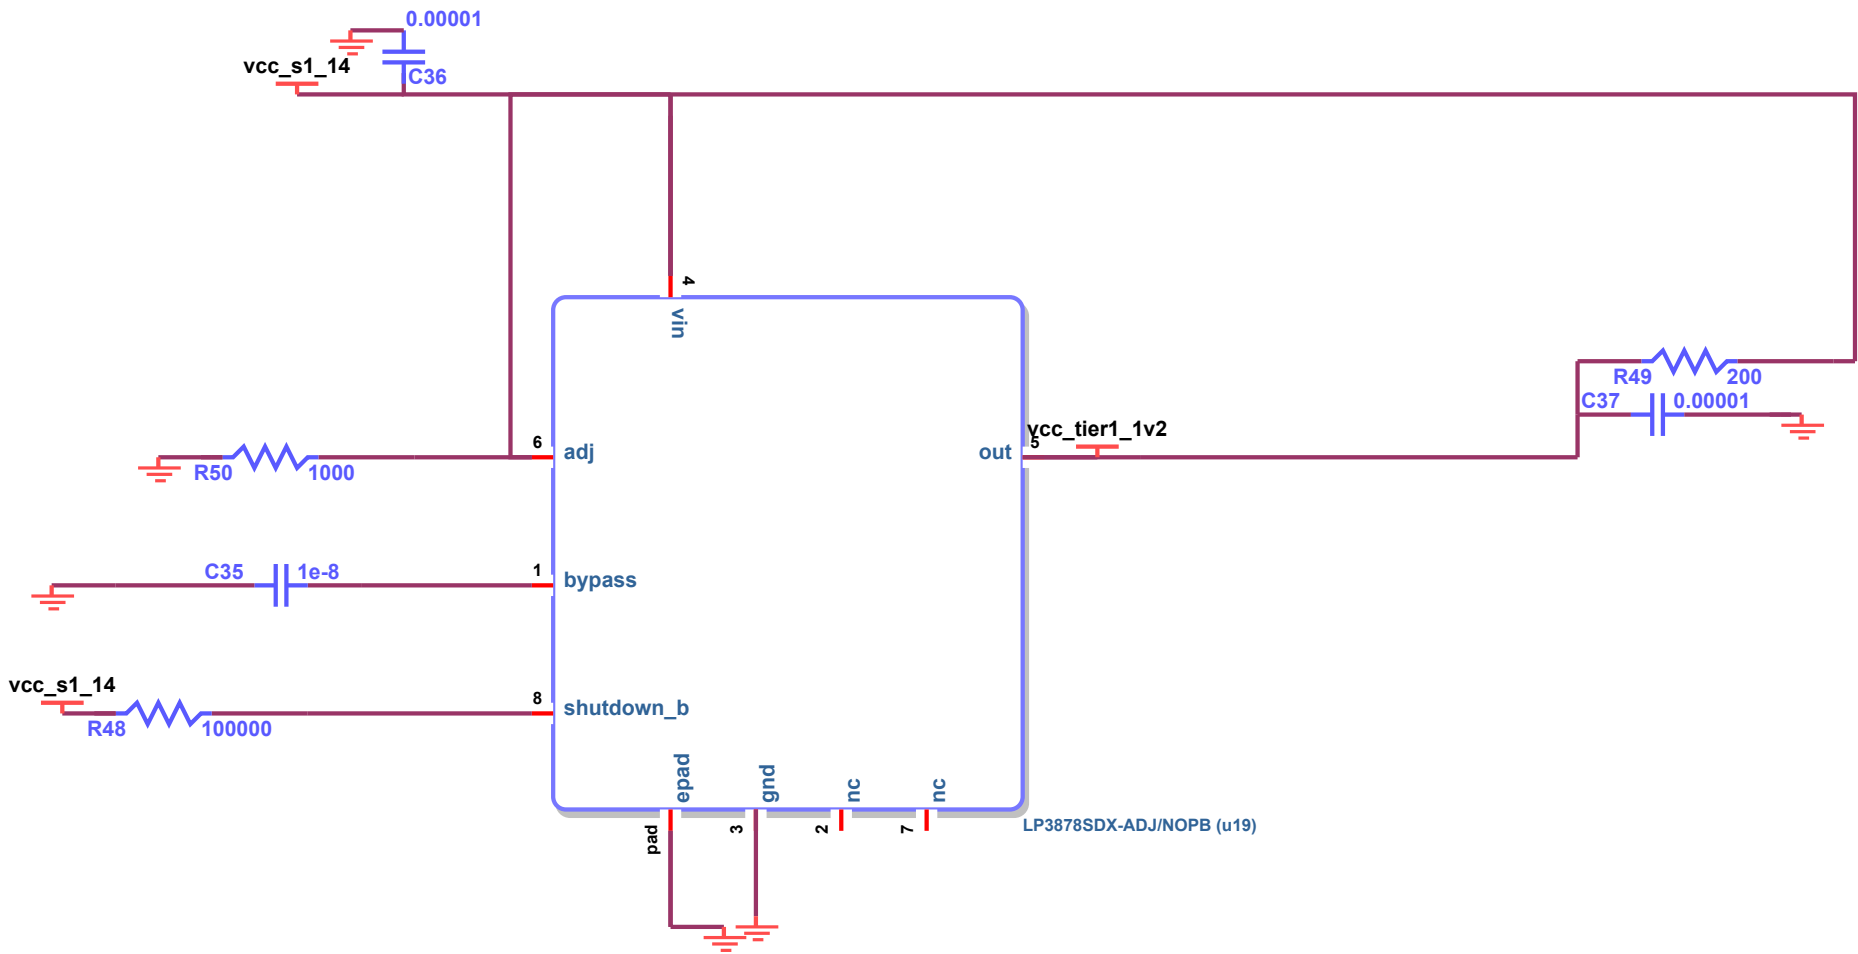

Dummy Part Connector Connections

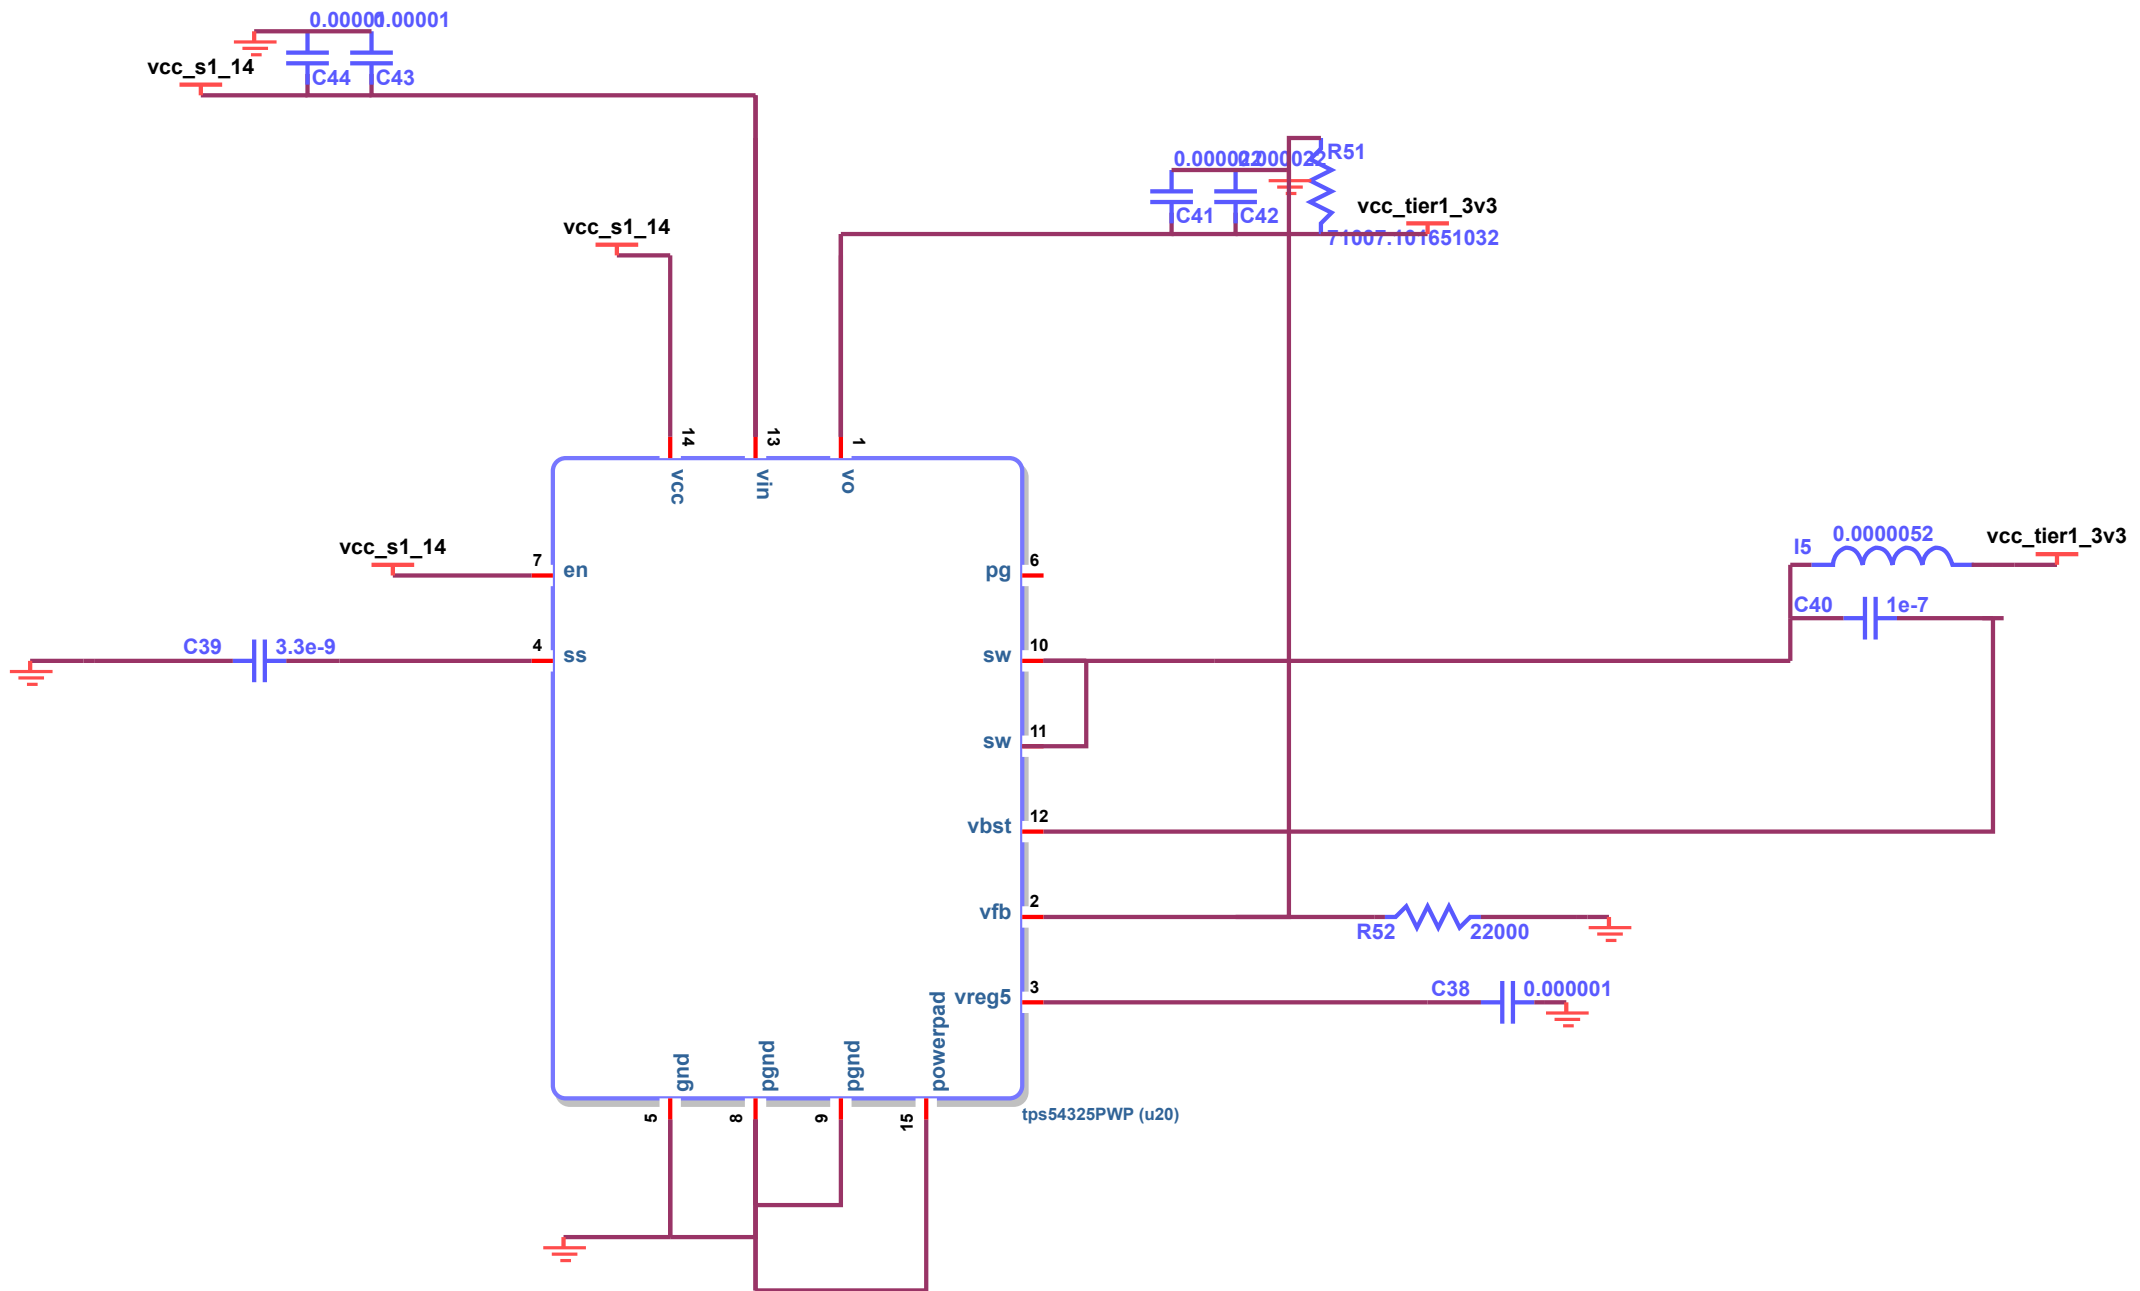

clock_top

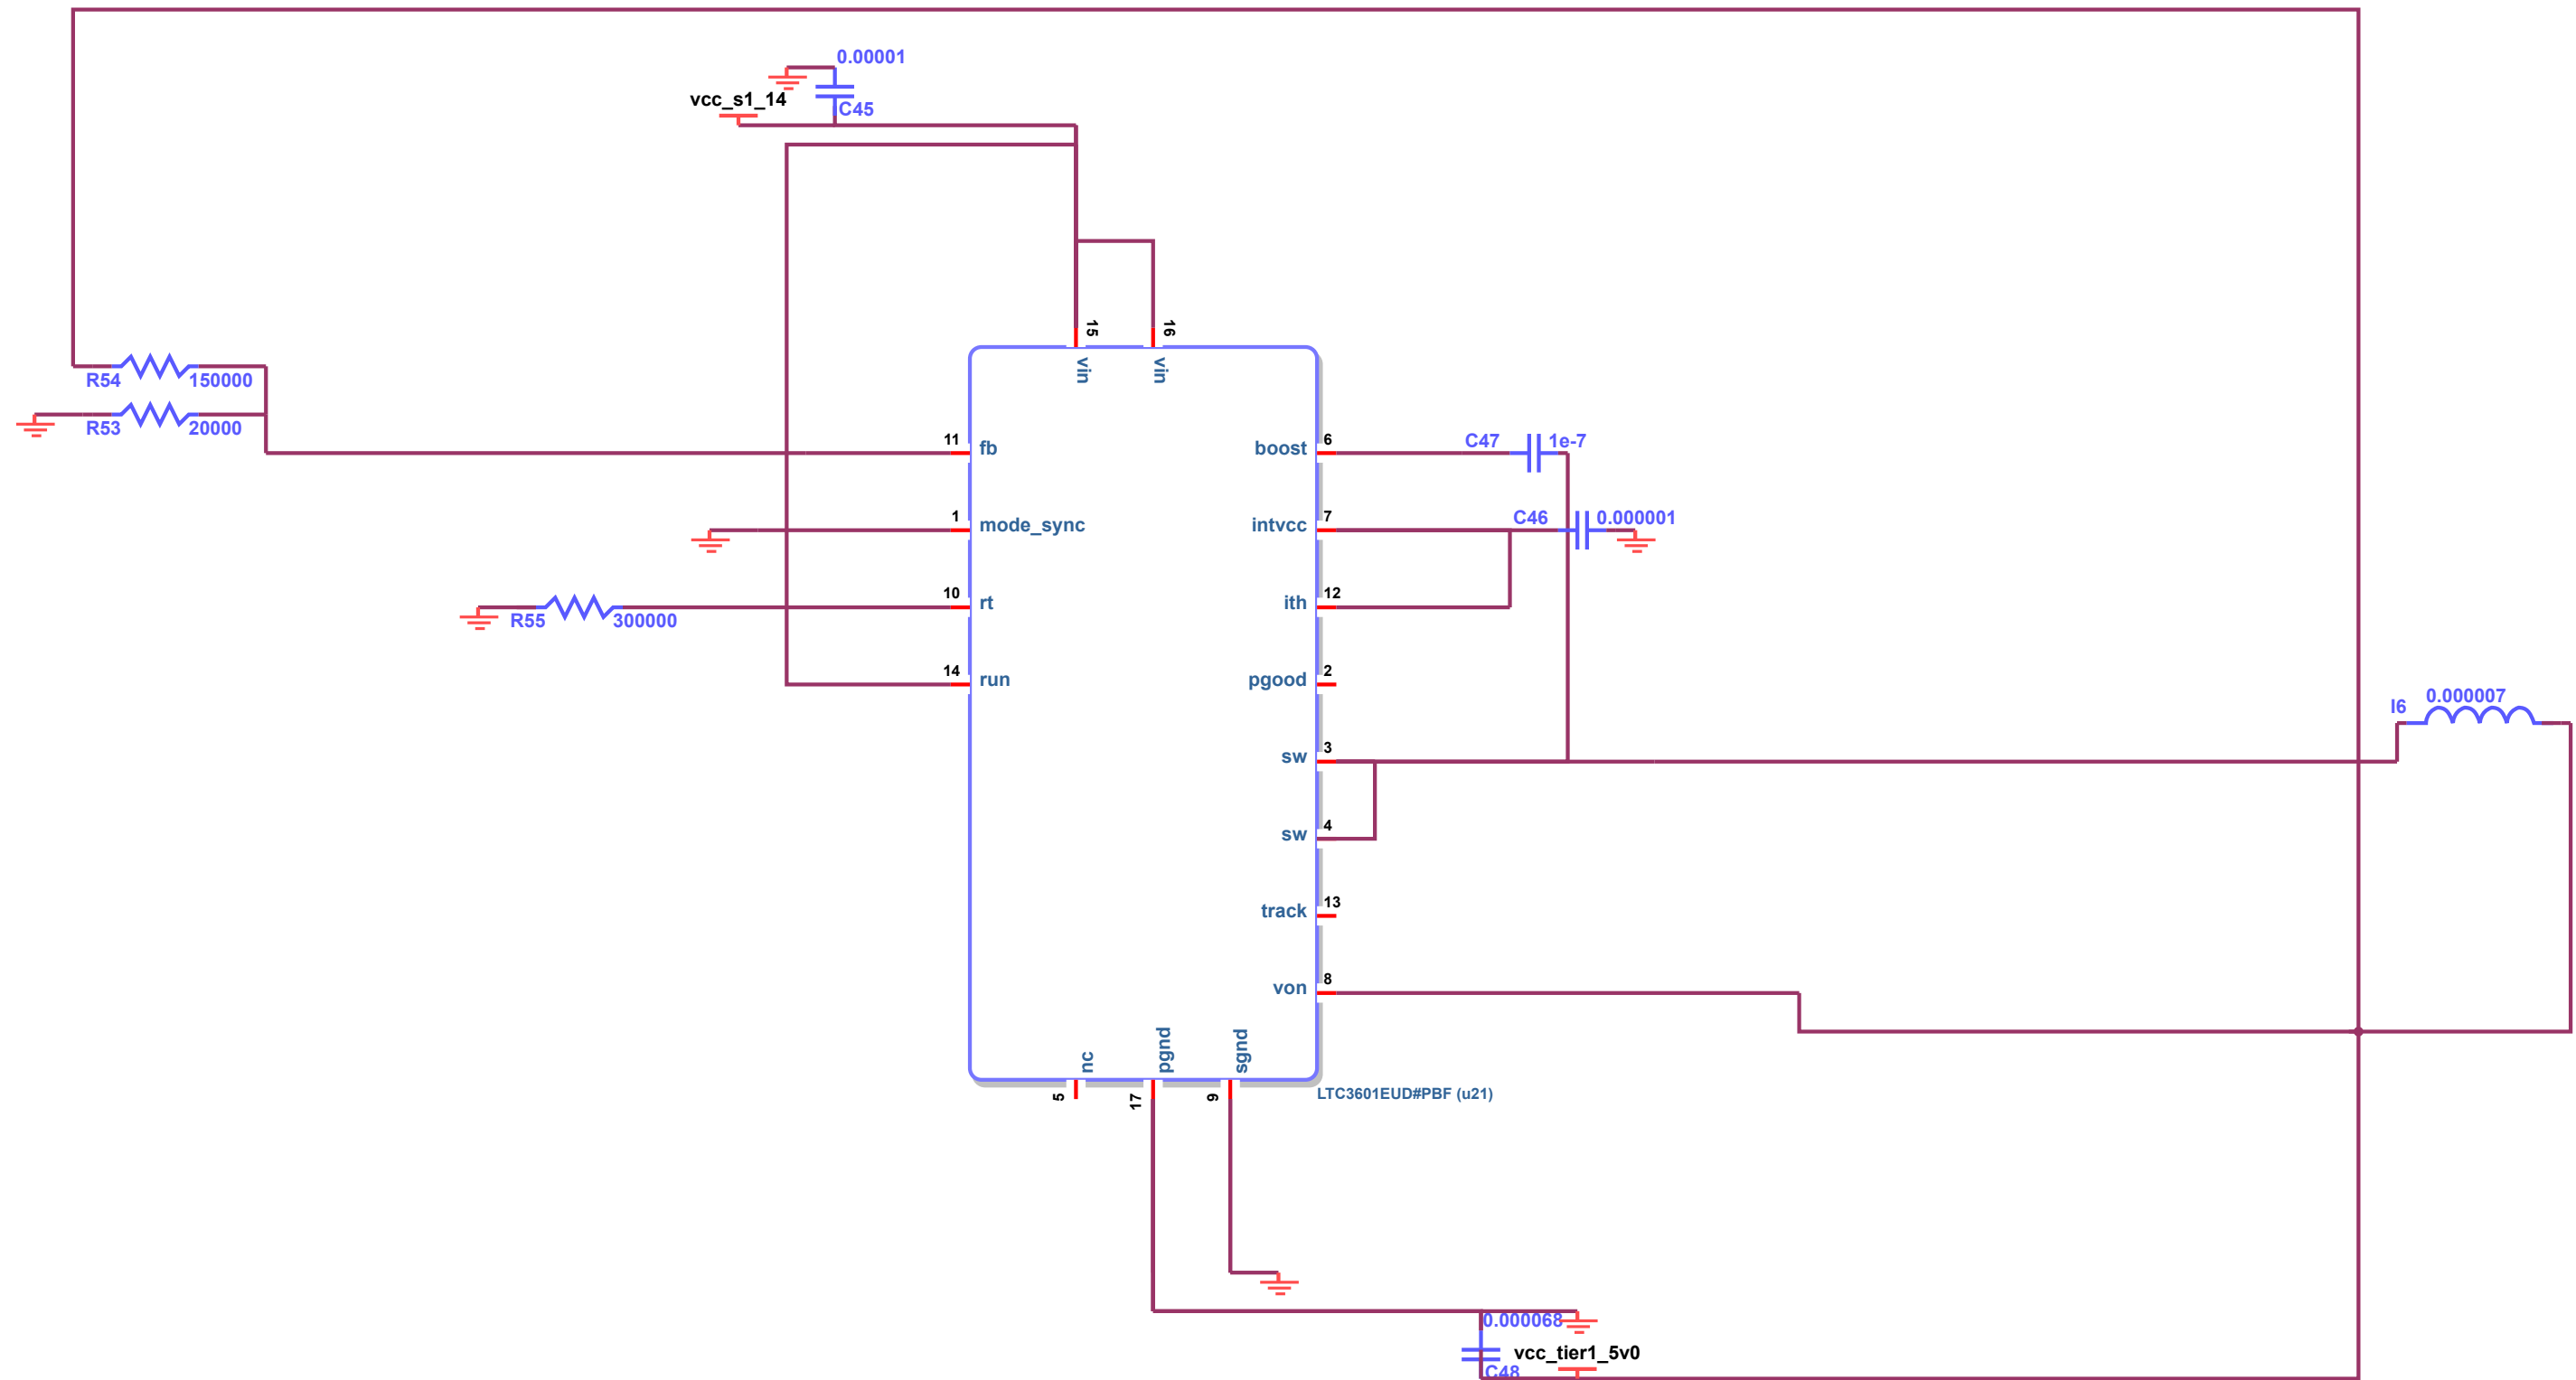

14V to 1.2V tier1 linear regulator. Expected load 0.012 Amp

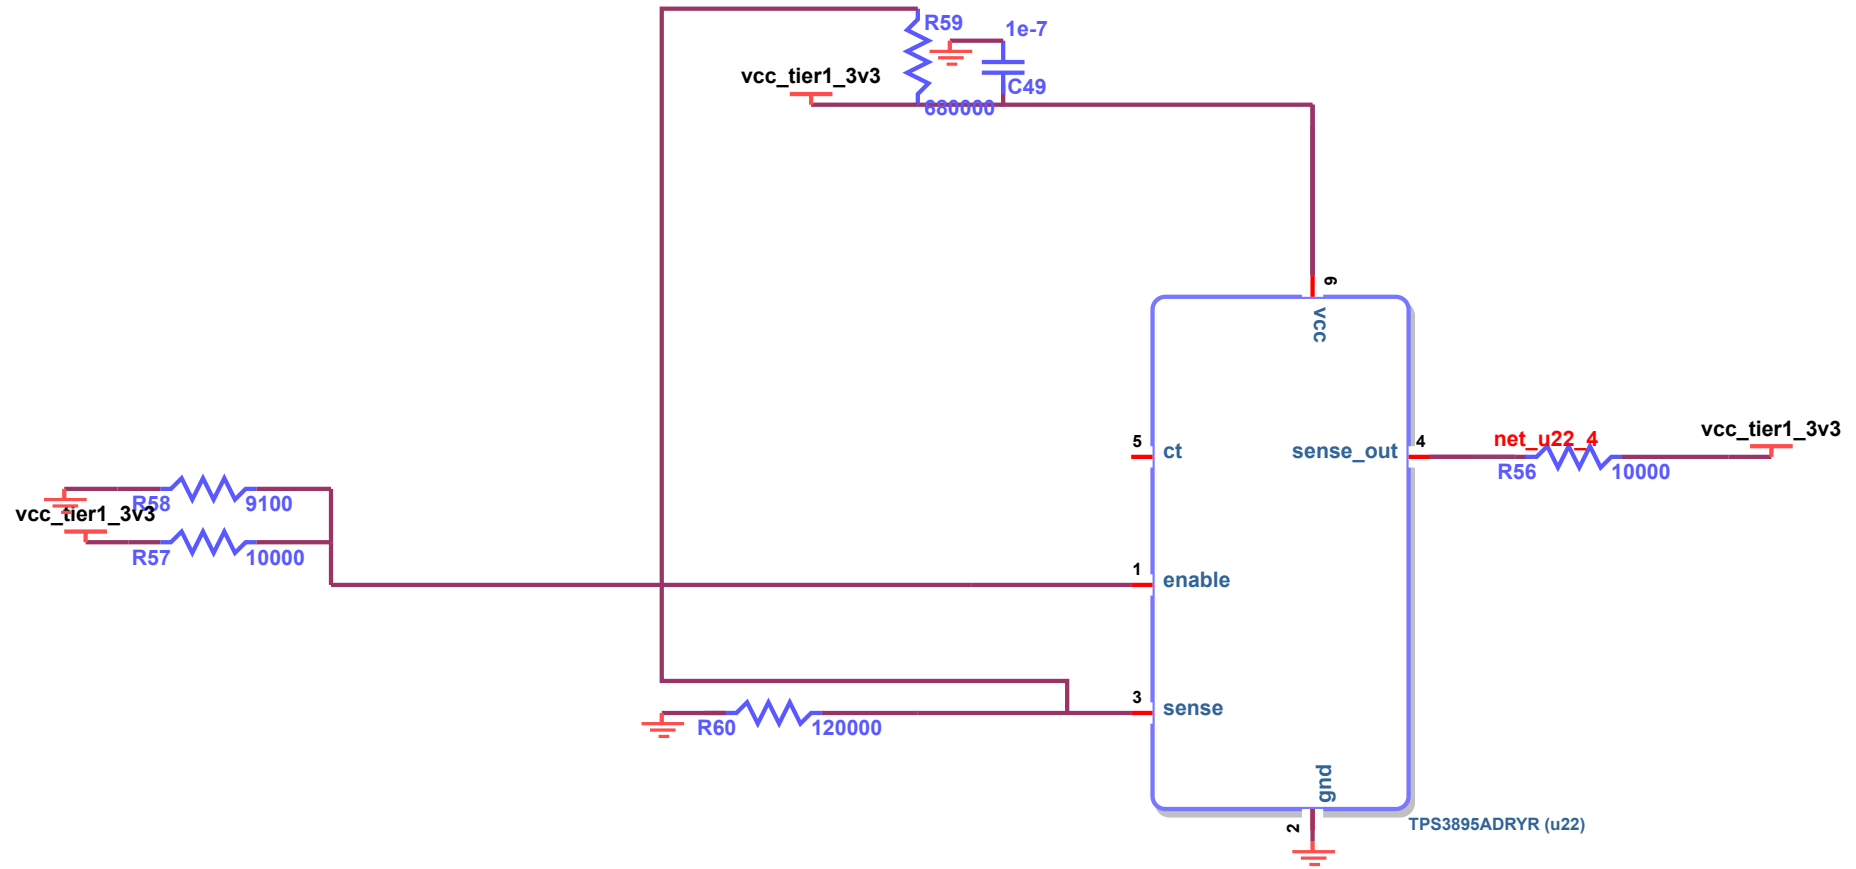

14V to 3.3V tier1 switching regulator. Expected load 2.188 Amp

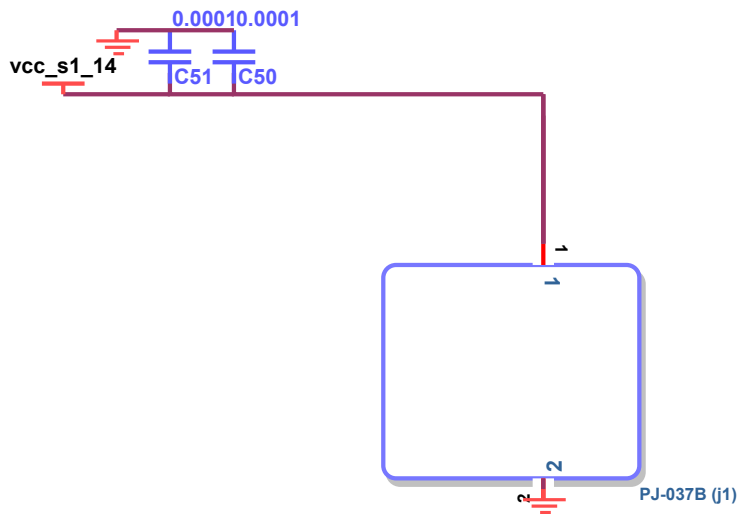

14V to 5.0V tier1 switching regulator. Expected load 1.000 Amp

Power Monitor and reset generator - reset interval 0.1

Input Power Voltage 14V Current Need 1.03A
